

Family Information Workshop One

Positive Approaches to Guiding Children's Behaviour

Positive behaviour guidance is when adults help children learn to 'self-manage' their behaviour and learn acceptable behaviour. It helps children think about their actions and the impact they have on themselves, others and the environment around them.

When expectations are clear and understood, children feel safe and secure, resulting in happy and confident children with improved self-esteem. Learn about positive approaches to guiding children's behaviour and how to develop strategies.

Learning objectives:

- Get some tips on encouraging acceptable behaviour
- Learn about requests versus instructions
- Learn about why your child might not be co-operating
