

# **MeLI**

# **Men's Family Violence Intervention Centre**

# Safer families, Safer communities

The Men's Family Violence Intervention Centre offers programs to increase the accountability of men who choose to use violence in their relationships. This ultimately aims to reduce the risk of re-offending.

## Men's Behaviour Change (MBC) - Group Work

The MBC group work program addresses the use of family violence through a gendered lens. It places accountability and responsibility to change on the man using violence. The group is delivered across 27 sessions.

## MBC - Post Participation Group

The MBC Post Participation Group provides an opportunity for men to continue their journey of change.

## Men's Case Management

Case management develops tailored programs for male perpetrators with complex needs to help them take responsibility for their use of family violence and address other support needs.

## Family Safety Contact

Phone support offered to affected family members through a Family Safety Contact Worker.
